SERIAL #	ENROLLMENT #	STUDENT NAME
1.	Student1525881	SAAD MASOOD KHAN
2.	Student1525879	JUZER IQBAL

<u>ACKNOWLEDGEMENT</u>

The first, we would like to express my special thanks of gratitude to my teacher Mr. Muhammad Atif, who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project. Secondly, we would also like to thank the e-Project team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about Aura Watch. Thirdly, we also thank the e-Project team, some of the benefits are as under:

• Re-enforcement of skills happens in the experiential learning process.

• A mentor, ensuring that we do not get drifted, constantly guides us.

• It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

SYNOPSIS

With the continuous advancement of technology and the thriving automotive market, every dealership needs a website design to showcase their vehicles online. At Carrio Motors, we offer a diverse range of automobiles, catering to various styles and preferences, making us your top choice for finding the perfect vehicle for your needs.

Our website features an extensive collection of cars, each meticulously presented with detailed descriptions and high-quality images. Whether you're in search of a sleek sedan, a rugged SUV, or a luxurious sports car, Carrio Motors has something special to suit every taste.

While purchases aren't completed directly on our website, we provide seamless integration with trusted dealerships and partners, ensuring a smooth and hassle-free buying process. Explore our inventory online, then visit our recommended dealerships or contact us for further assistance in finding your dream car.

Experience Carrio Motors difference today. Discover the best in automotive excellence through our website and embark on your journey towards owning the car of your dreams.

PROBLEM STATEMENT

Carrio Motors is one of the fastest growing Dealerships. We focus on delivering high Customer Satisfaction Standards. All employees are committed to provide service with Discipline, Focus and Speed, by following all Standard Operating Processes defined by our company.

Our Dealership's presence is well spread across country with all our showrooms more than 8000 sq. ft. Our Service centres are located strategically to offer best service to our customers. We proudly carry brands such as BMW, Audi, Hyundai, JEEP, Suzuki, Kia, Morris Garage and more.

The company aims to break new ground by harnessing the power of technology and revolutionizing processes to make car ownership for the customers a truly enjoyable and hassle-free experience. So, taking into consideration the expanding business, the company planned to host the primary information through its website.

You are supposed to create a Single-Page-Application and responsive Website for them with the below mentioned requirement specifications.

The website is to be developed for the Windows Platform using HTML5, CSS, SWIPER JS, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

FUNCTIONAL REQUIREMENT SPECIFICATION:

The portal will be designed as a Single-Page-Application and responsive Website with a set of pages and menus that represent choice of activities to be performed. The pages, menus, and other visual elements must be designed in a visually appealing manner with attractive fonts, colours, and animations.

All of these should also be laid out in a responsive manner

The Web site is to be created based on the following requirements.

1) The Top of the Page should be presented with a suitable logo and banner image of car.

2) Brand wise categorization of Cars should be provided in the website.

3) Apart from Brand, Performance wise categorization of cars from various brands should be provided.

4) A menu which will include all the functions implemented in the site.

5) Clicking on a car picture should open popup window with car details and specifications. The details include features, price, location of the dealer etc.

6) Section for Finance option should be provided.

7) Site map, Gallery, about us, contact us link must be added.

SCOPE OF THE WORK (IN BRIEF)

The website is to be developed for the Windows Platform using HTML5, CSS, SWIPER JS, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.
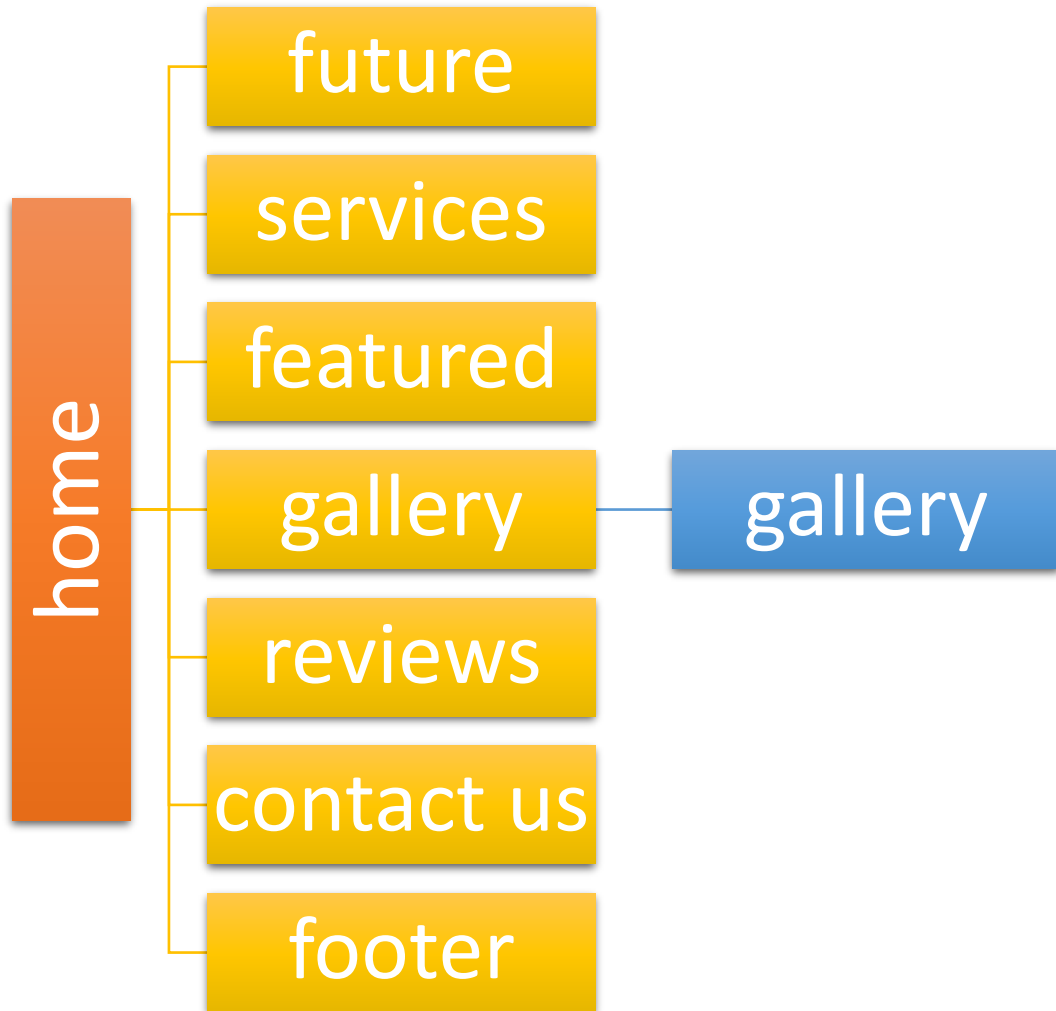

Homepage show Top Featured cars, financing option, gallery, Client review, contact us form etc.

Its a single page website and every navbar menu directs to relative content.
